

# Diaphragm Pumps

## GD7009

- Maintenance-free
- Compact size
- High performance
- Long product life
- Low Noise
- Uncontaminated flow

### Airflow Curve

### Specification

Model	GD7009
Outlet Airflow	9l/min
Rated Voltage	DC12/24V
Max Current	0.8/0.65A
Maximum Vacuum	-70KPa
Maximum Pressure	0.07MPa
Weight	0.7Kg
Dimensions	102×95×74mm
Ambient Temperature	5 deg.c to 55 deg.c

### Application Examples

- They are required especially in the fields of analysis, medicine and production technology.
- The pumps are used for sucking gases, taking samples and evacuating vessels.

### Dimensions mm
