

# Linear Diaphragm Pumps

## LP-150

- Special artificial rubber to keep a steady air output and pressure.
- Advanced air-compressing system, damping system and multi-level muffler which is extremely low in noise.
- The structure is reasonable and compact, it is long service life and acquiring best effect with lowest energy consumption.
- Aluminum alloy case, quick in heat-dissipation and easy to move.

### Airflow Curve

### Specification

|                     |                     |
|---------------------|---------------------|
| Model               | LP-150              |
| Outlet Airflow      | 150l/min            |
| Rated Voltage       | AC220/100V          |
| Frequency           | 50/60Hz             |
| Input power         | 125W                |
| Maximum Pressure    | 0.045MPa            |
| Sound Level         | 50dB                |
| Weight              | 9.2Kg               |
| Dimensions          | 270×220×220mm       |
| Ambient Temperature | 5 deg.c to 55 deg.c |

### Application Examples

Aquarium Aeration

Liquid Mixer Bubbling

Air Purification

Sewage Treatment Aeration
