

## DP200V & 200H

- Oil-less, non-lube piston and cylinder
- Durable Valves
- Balanced for smooth, low vibration operation long-life
- Permanently lubricated motor shaft and connecting rod bearings
- Low sound levels
- Field service capability

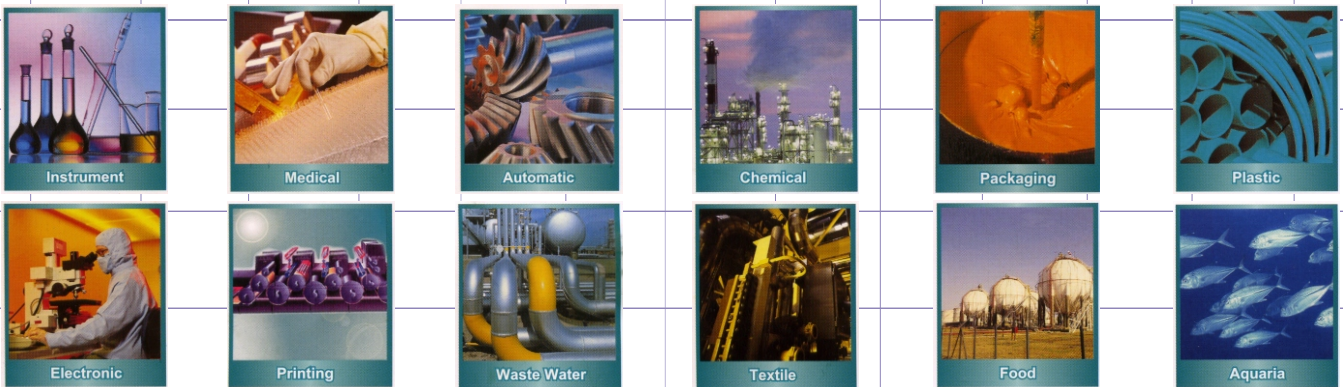

### Airflow Curve

### Specification

Model	DP200V	DP200H
Outlet Airflow	200l/min	140l/min
Rated Voltage	AC220V	
Frequency	50/60Hz	
Input power	1240W	
Maximum Pressure	0.7MPa	0.95MPa
Maximum Vacuum	-90KPa	-97KPa
Sound Level	60dB	
Weight	15.5Kg	
Dimensions	319×195×290mm	
Ambient Temperature	0 deg.c to 45 deg.c	

### Application Examples

### Dimensions mm
