

DP90V & 90H

- Oil-less, non-lube piston and cylinder
- Durable Valves
- Balanced for smooth, low vibration operation long-life
- Permanently lubricated motor shaft and connecting rod bearings
- Low sound levels
- Field service capability

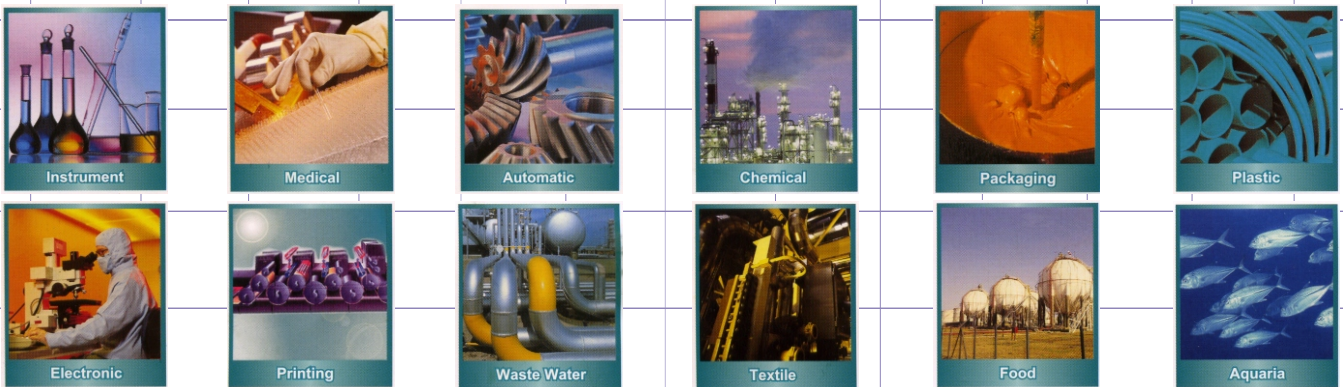

Airflow Curve

Specification

Model	DP90V	DP90H
Outlet Airflow	85l/min	60l/min
Rated Voltage	AC220/100V	
Frequency	50/60Hz	
Input power	500W	
Maximum Pressure	0.7MPa	0.8MPa
Maximum Vacuum	-90KPa	-98KPa
Sound Level	60dB	
Weight	7.8Kg	
Dimensions	245×127×180mm	
Ambient Temperature	0 deg.c to 45 deg.c	

Application Examples
